

Clean Marina Washington

Clean Marina Washington is a voluntary, incentive-based program that encourages marina operators and recreational boaters to protect coastal water quality by engaging in environmentally-sound operating and maintenance procedures. Designated clean Marinas that earn the right to “fly the flag” are recognized as environmentally responsible businesses through a variety of avenues.

With your help and participation we will become the stewards of clean water in Hood Canal. Following are guidelines to help us achieve our goal and protect the water quality in Hood Canal.

PROTECT
OUR WATERS
